

DF6100VDS

Intelligent addressable control panel

“The simplicity of operation, powerful cause and effect programming capability and competitive pricing make the system suitable for a wide range of small to medium sized projects.”

The DF6100VDS is a high specification addressable panel for medium sized builds that is equipped with a versatile touch screen user interface. It is available as a 1 (DF6100VDS) or 2 (DF61002VDS) loop panel.

The powerful cause and effect programming capability and competitive pricing make the system suitable for a wide range of small to medium sized projects. The panels can operate as standalone or as part of a network with our other addressable panels (additional network card required).
